RE: School Choir/Band Enhancement Program

Attention: School Administrator, Band and Choir Director.

Shin's Music Studio is happy to announce "The School Choir / Band Enhancement Program". This program is our way of helping the community through our student's schools.

Many of schools around our studios have been greatly affected in regards to the economic stumbling period for the last 5 years. Most have already closed their music programs or have received serious cutbacks to their funding. With so many gifted and talented students out there, it would be a great detriment to our community if we were unable to help nourish these children and teenagers to their respective potentials. Fortunately, we have prospered and need to give back to our community.

Our program is a 100% donation to the respective school music program. How it works:

1. Please post our notice/poster where it will be visible within the choir or band room.
2. Any student that is currently taking lessons with Shin's Music Studio's will fill out the program form and have it signed by the respective music teacher. Example: Voice student will have choir teacher sign form then mail to us. Any kind of instrument will have band teacher sign form then mail to us.
3. 10% of the net lesson proceeds received will be donated to the respective department monthly.
4. Only students from the respective school will the music department receive the donations.
5. School may still receive donations from a student even though he/she is not currently enrolled with their school music program. The respective departments receive the donations based on what the students' play(s) at our studios.
6. Form is to be completely filled out completely to include tax exemption number.

This program is a recurring program for as long as the student takes lessons with our studios. Let's keep the music alive!

To be launched January 1st, 2012

If you have any questions or comments, Please do not hesitate to contact me for additional information.

Thank you,
